APPROVAL

OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the manner and place of use of a portion of the waters of an underground source as heretofore granted under Permit 21251 is issued subject to the terms and conditions imposed in said Permit 21251 and with the understanding that no other rights on the source will be affected by the change proposed herein. It is to be understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of stock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2" opening for measuring depth to waters. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take the responsibility for the use of the Federal range.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0327 cubic feet per second or sufficient water to water 1,000 head of cattle and 50 horses.

Actual construction work shall begin on or before November 24, 1968

Proof of commencement of work shall be filed before December 24, 1968

Work must be prosecuted with reasonable diligence and be completed on or before November 24, 1968

Proof of completion of work shall be filed before December 24, 1968

Application of water to beneficial use shall be made on or before November 24, 1969

Proof of the application of water to beneficial use shall be filed on or before December 24, 1969

Map in support of proof of beneficial use shall be filed on or before

Commencement of work filed DEC 30, 1968
